SUMMARY

Full Stack Web Developer with a background in education, customer service and management. Known as a detail-oriented, innovative problem-solver passionate about coding and debugging to ensure a more intuitive end-user experience. Excited to leverage skills in the future as part of a fast-paced, quality-driven team, in order to build better experiences on the web.

TECHNICAL SKILLS

Technologies Used: AJAX, API Calls, Bootstrap, Bulma, CSS, Express, GitHub, Heroku, HTML, JavaScript, jQuery, Mongo DB, MySQL, Node, React.js

PROJECTS

Cocktail_Coterie | <https://JulieAnn2330.github> | <https://cocktail-coterie.herokuapp.com/>

- Completed second project for Boot Camp, working with three other students. User can search for cocktails and schedule a virtual cocktail party. The party invite includes the chosen cocktail, with ingredients, directions for making the cocktail and a picture of it, and input field for a Zoom or GoogleMeet link, with a auto-generated link for the invitation to be included in an email or text message.
- Involved in full stack development, including database creation and functionality using MySQL.
- Site includes use of AJAX, CSS, Express, Handlebars, HTML, JavaScript, MySQL, Node, and ORM .

SpaceX/NASA Flight Data | <https://JulieAnn2330.github> | <https://JulieAnn2330.github.io/spacex-nasa-flight-data/>

- Completed first project for Boot Camp, working with three other students. Pages display carousel of NASA and SpaceX images and interactive timelines with key dates for each. Data page displays random project information for NASA and a dropdown of SpaceX missions that tie in historical weather data.
- Responsible for front end development. Incorporated style for application including colors and fonts across site. Populated site with interactive timeline and carousel.
- Site includes use of HTML, Bulma, JavaScript, CSS, jQuery, AJAX, moment.js and API calls.

Work Day Scheduler | <https://JulieAnn2330.github> | <https://JulieAnn2330.github.io/work-day-scheduler/>

- Project is a scheduling application for the current day. Includes times from 8am-8pm for scheduling, save button and delete button.
- Responsible for front and back end development. Designed the look and feel of the application including the colors and font. Added in delete button in addition to other assignment requirements.
- Site includes use of HTML, Bootstrap, moment.js, JavaScript, JQuery and CSS.

Code Quiz | <https://JulieAnn2330.github> | <https://JulieAnn2330.github.io/code-quiz/>

- Interactive quiz over basic JavaScript knowledge. Ten question records answers and awards or deducts points based on whether answer is correct or not.
- Responsible for front and back end programming. Developed style for application including colors and fonts. Programmed point system and way to capture users name to display with points at end of quiz.
- Site includes use of HTML, Bootstrap, JavaScript, moment.js and CSS.

EXPERIENCE

Vice-President Customer Service Uhlig LLC

2013 – 2020
Overland Park, KS

Liaised with two corporate offices regarding submission of artwork, story files, upcoming special projects, and deadlines. Prepared written communications for customers in form of emails and User Guides. Updated customer database and processed orders in FileMaker Pro or proprietary software.

Key Accomplishments:

- In conjunction with software team, managed projects from Customer Service side to develop and provide system upgrades to customers
- Successfully worked with an experienced software team developing a proprietary, web-based interface for 600 users.

Notices Production Manager Uhlig LLC

2012 – 2013
Overland Park, KS

Analyzed ordering history to determine production staffing levels and inventory needed on a monthly basis. Managed production deadline and on-time delivery of products. Assisted fulfillment team with print and mailing of customer documents.

Key Accomplishments:

- Developed workflows and systems processes for new business projects taken on during this time

Vice President Sales Administration Uhlig LLC

2010 – 2012
Overland Park, KS

Worked with sales representatives to secure new business and service existing clients. Prepared pricing quotes for prospective customers. Prepared monthly sales and commission reports for review by SVP-Sales.
